From where I sit ... by Joe Marsh

Experienced Hand Wanted

Cappy Miller's back from visiting relatives and tells about a big snow storm that knocked out the electric power for miles around.

Naturally, the local power company was doing everything possible to restore service but folks kept coming in and one woman gave them a new twist.

"I don't mind not having lights," she gruelled, "but I've got 26 cows in my barn and they all have to be milked by machine. Nobody around here knows how to milk a cow by hand any more."

From where I sit, it's only too easy to forget how to do something—even as simple as milking a cow—if we don't keep at it. And that goes for practicing tolerance, too. Like forgetting our neighbor has a right to decide for himself whether or not to enjoy a temperate glass of beer. If we don't keep the other fellow's point of view in mind we're all liable to get "snowed under" by intolerance.

Feed Efficient Hog Control Or Profits

narrow margin of profit in hog uction is foreseen for at least rt of 1952 by George Herring, al husbandman at VPI.

e says the large volume of hogs e to market early in the year tend to hold down prices. Feed which make up 75 to 80 per of the total cost of production, advanced rapidly. However, if ge corn crop is produced in the ed States in 1952, conditions improve for the hog producer fall.

erring says it will be important hog producers to adopt grain ng practices to show a profit this . One of the most important ices is the use of good pasture d ladino clover is the best. ing down losses from parasite disease, using balanced rations, good breeding stock are other saving practices. Marketing at somewhat lighter weights also may be helpful.

rginia farmers plan to continue production on about the same as last year. Only a one per reduction in sows farrowing in spring is indicated. As a whole South Atlantic states appear to maintaining production at a high . The heaviest reduction will oc- in the corn-belt state, where yields are low and crop quality low.

ationwide, a spring pig crop nine cent below 1951 is expected. will result in reduced supplie. ork next fall and winter.

FORD MEANS MORE IN TRACTORS, TOO!

A Name can promise sterling value; pledge lasting satisfaction. A name, proved over the years, can certify to an especially high type of performance. A name can stand for productive ability that has changed the course of human history. A name can be representative of enlightened scientific research to create new prosperity and better living.

If ever a name in business has come to mean all of these things, that name is "Ford." It has held the confidence of three generations of Americans—and, particularly, of America's farmers.

To farmers, too, the Ford name is a reminder of millions of research dollars, such as those invested in the exploration of soybean possibilities, which opened huge new markets for this cash crop and pointed the way to vastly widened uses for many other farm products.

The name "Ford" on a tractor today has a meaning even beyond all this. It means manufacturing skill and volume production resources unique in the farm equipment field. It means engineering leadership—constantly keeping ahead with such new developments as the Ford Tractor "Proof-Meter." It is backed by good service and assurance that parts will be available. It means low price and a generous measure of extra value for that price.

And, finally, the name "Ford" is the symbol of a sound investment, for a Ford Tractor, even after years of use, will still bring a good price.

FORD TRACTORS AND DEARBORN IMPLEMENTS ... the ideal working combination

Dearborn Implements are designed to team with the Ford Tractor, to give you the advantages of built-in hydraulic control; of ability to be attached or removed quickly; of faster, easier, more economical operation and better work on a surprisingly wide variety of jobs.

Let us prove what a Ford Tractor can do for you ... right on your farm!

What the name "FORD" on a Tractor means to you!

Mrs. Barkley Urges Aid

Asks Heart Fund Support To Combat Major Menace

Mrs. Alben Barkley, wife of the Vice-President of the United States, urged today that "all get behind the annual Heart Fund of the American Heart Association and its affiliates as these organizations can press forward their programs for combatting the nation's most serious health menace."

A member of the Board of Directors of the American Heart Association, Mrs. Barkley declared: "We are all aware that heart disease is this nation's leading cause of disability and death. However, many of us are not aware of the fact that rheumatic fever, which causes rheumatic heart disease is childhood's greatest enemy.

"Therefore, heart disease is the concern of every single one of us in America. Heart disease attacks at any age, but most frequently in the very prime of life—at the time when we are most productive —when we have our greatest responsibilities to our family, our community and our country."

Mrs. Barkley

Mrs. Barkley pointed out that "contributions to the Heart Fund will put the powerful weapons of research, education and community service in the hands of medical science . . . help our doctors help us."

The A. H. S. Newscast

Happy days are here again! Exams are over! Everybody breathed a sigh of relief Wednesday afternoon when the last bell rang. I don't really think they were as bad as we had imagined them. Report cards will be out in a few days, so we will soon be able to see the fruits of our labor.

We have been having a great deal of rain lately, which has caused Mr. Bragg a little trouble. It seems like his classroom has become an indoor swimming pool. Why don't you start a swimming class, Mr. Bragg? I know lots of people would like to learn to swim.

The entire school was out Wednesday morning for a movie. It was on sports and the proceeds went to the athletic fund.

The Monogram Club had a meeting last week to plan for its annual banquet. At this banquet the senior members of the club are guests of honor and are presented with monogram sweaters. The banquet is to be held the last of this month. Tickets may be secured from the members of the Monogram Club.

The Future Homemakers of America are going to entertain the seniors at a buffet supper the 22nd of this month. Those seniors are such lucky people, aren't they?

The Tri-Hi-Y Club held its meeting Monday morning. Shirley Watson was in charge of the devotion. The first Monday in the month we have a social. The social this month consisted of singing. We were very happy to have the Hi-Y boys join us for the fun. The meeting adjourned with the Tri-Hy benediction.

The annual staff is putting on a concentrated drive to sell copies of the annual. Only about half of the number ordered have been sold. An annual is something that becomes more valuable each year. It is something that you never tire of looking at. Won't you see your home room representative and buy your annual now?

The basketball teams played Madison Heights and Concord last week. There was some fast, hard playing on the part of the boys and girls, who won both games. Thursday they play Madison Heights at Madison Heights.

This completes my newscast for the week, but I will be back, same time, same place next week. I hope you will have bought an annual by then.

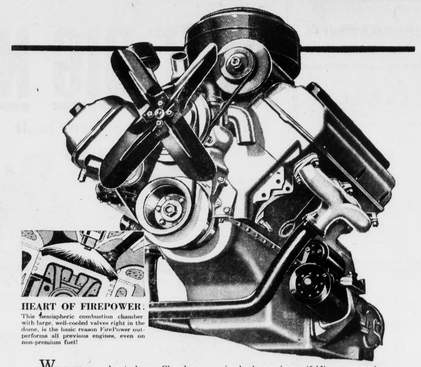
BEFORE YOU INVEST IN ANY FINE CAR... COME DRIVE THIS

CHRYSLER V-8 ENGINE!



HEART OF FIREPOWER: This hemispheric combustion chamber with large, well-cooled valves right in the dome, is the basic reason FirePower outperforms all previous engines, even on non-premium fuel!

WHETHER you plan to buy a Chrysler or not, we cordially invite you to drive this revolutionary Chrysler FirePower V-8 engine. Only FirePower performance can possibly tell you what it is like. We want you to have that experience. The FirePower engine is a basic new design so advanced it can meet rising performance needs for years to come. Today it delivers 180 horsepower, even on non-premium fuel, and when desirable with simple changes in manifolding, compression, and carburetion the horsepower can be raised to 250 . . . or over 300, as in the experimental Chrysler K-310 car. Naturally, others will imitate this Chrysler achievement, at least in part. We honestly believe that the FirePower engine will outperform any other car in America . . . and we invite you to learn the new standard in engine performance Chrysler has set by driving it yourself.
